FREQUENTLY ASKED QUESTIONS

Q: Can I stop paying premiums and keep the Policy going using existing Account Value? A: Yes, as long as Account Value is sufficient to cover ongoing charges, the Policy continues on a premium holiday, but charges will continue to erode the Account Value.

Q: What happens to my investments if I make a claim? A: A Critical Illness claim reduces future Death Benefit Sum Assured but does not touch your Account Value or sub-fund holdings, which continue to be invested.

Q: Can I switch between sub-funds at any time? A: Yes, subject to the free switch allowance of 12 times per policy year described in the Fact Sheet; additional switches incur a small fee.

Q: Is there a guaranteed minimum return on my investment? A: No. This is an investment-linked plan; the Account Value is not guaranteed and can fall as well as rise with sub-fund performance.

Q: Can I top up my policy with a lump sum? A: Yes, ad-hoc top-up premiums are allowed at any time, subject to a minimum top-up amount, and are allocated to your selected sub-funds after deduction of a top-up charge.

Q: What happens if I am diagnosed with more than one critical illness over time? A: This plan generally pays out once for the first diagnosed covered Critical Illness; please refer to Appendix A of the Policy Contract for staged-payout provisions on specific conditions.
