PRODUCT SUMMARY

AIA Pro Achiever Invest is a regular premium investment-linked plan (ILP) that combines life protection, critical illness coverage, and investment in a choice of sub-funds. Part of each premium pays for insurance charges and part is invested according to the Policy Owner’s chosen fund allocation.

WHO IS IT FOR

This plan suits individuals aged 18 to 55 who want to build long-term wealth while maintaining life and critical illness protection in a single plan, and who are comfortable with investment risk, including the possibility that fund value may fall below total premiums paid.

KEY BENEFITS

Death Benefit: the higher of the sum assured or the account value is paid on death. Critical Illness Benefit: 100% of the critical illness sum assured is paid on first diagnosis of one of 105 covered critical illnesses, and the plan continues for the remaining death benefit. Investment Choice: access to over 60 sub-funds across equity, bond, and multi-asset strategies, with free fund switches up to 12 times a year.

PREMIUM AND SUM ASSURED

Minimum regular premium is SGD 3,600 a year. Minimum life sum assured is 10 times the annual premium for Policy Owners under age 40, tapering for older entry ages per regulatory minimum sum assured requirements for ILPs.

INVESTMENT RISK DISCLOSURE

This plan is an investment-linked policy. The account value is not guaranteed and is subject to fund performance and market risk. Past fund performance is not indicative of future performance.
