FREQUENTLY ASKED QUESTIONS

Q: Can I convert this term plan into a whole life or investment-linked plan later? A: Yes, subject to a conversion option being exercised before the earlier of age 65 or the end of the original policy term, without further medical underwriting, subject to conditions.

Q: What happens if I stop paying premiums? A: After the 31-day grace period, the Policy lapses and all coverage ends immediately, since this plan has no cash value to keep it in force.

Q: Is smoking status reviewed after the policy is issued? A: No. The premium rate locked in at issue based on your declared smoker status remains fixed for that policy term, provided your declaration was accurate.

Q: Can I increase my sum assured later without new underwriting? A: Selected life events - marriage, birth of a child, or a new home loan - allow a one-time increase of up to 25% of the original sum assured within 90 days of the event, without medical underwriting, subject to a cap.

Q: Are pandemics or epidemics excluded? A: No. Death or TPD arising from a pandemic-declared illness is covered under the standard terms of this Policy, subject to the general exclusions in Section 3 of the Policy Contract.

Q: How do I nominate or change my beneficiary? A: You may nominate or change a beneficiary at any time by submitting a signed nomination form to AIA, except where an irrevocable nomination has been made.
